

From the Vice President: Instead of having a traditional meeting last month at Shooters, our May meeting was held at Red Sands beach in Wisconsin Rapids. The club supplied pizza for dinner and cookies for dessert. After a very brief meeting, we had a \$100 planted hunt for the club members that wanted to detect. We put 100 painted pennies in the grass and paid \$1 for every painted penny found. In total, 94 pennies were found so club members went home with 94 dollars more than they came with. From the conversations afterward, I think everyone had a great time.

Our next meeting will be held at Shooters, June 17th at 7:00 p.m.. Please bring in some of the treasures you have found for our Finds of the Month contest.

Kent

There was NO membership drawing:

Don't forget that the hunt flyer is out for the July annual hunt.

Another thing to remember, is that when you are out there metal detecting on public property to cover your holes and step on them, so that they appear somewhat the same before you dug.
