## MIDSTATE METAL DETECTOR CLUB NEWSLETTER

Volume No. 12  
November 2013

Issue No. 11

### **Editorial Corner:**

Hi everyone,

We had a very successful meeting last month, with members stepping up and offering their Services for the various positions that needed to be filled. I personally want to thank those who made the ordeal of having new officers go so smooth.

The club had a great speaker from Eau Claire area, who brought his prized finds over very many Years of detecting. Tom gave us so much information on how to go about finding artifacts and copper by using the internet and finding the coordinates on any properties that one may be interested in detecting, once they get permission. To be successful you have to do the research first, according to Tom. He brought his copper jewelry that he makes, beautiful items.
