

## **Midstate Metal Detector Club Newsletter - August 21, 2019**

Hello All

Well We made it through the hunt, I heard lots of good things and didn't hear anything bad.

Thank You too everyone that came and did all the hard work.

There will be a meeting tomorrow night at shooters at 7 pm and I have had some people with interest in someone to talk to them about using a equinox and also

there is a 13 year old boy that is interested in joining

I will not be there tomorrow as work is really crazy.

I haven't even had time to make out the bill for the hunt but it is in the works.

There should be normal raffles and drawings tomorrow but we will wait on display case drawing until I get there with the prizes. But lets get a list together on who brought cases and how many . I brought 10

Don't forget Club elections are in September so get involved.

Have fun detecting and bring in your finds – Steve
