

Midstate Metal Detector Club Newsletter

Hello everyone Sorry to say I have made the decided to cancel the meeting for February 20th 2019 , due to the expected 4 -6 inches of snow.

Nothing that important going on with the weather safer to stay home.

I really hope to make it to the march 20th meeting as I will be back from England on the 17 and off to Virginia around 22 or 23 of March

Do not forget to go to the club website <http://midstatemdc.com> and download the scavenger list put down what you found in 2018 and turn it in at March meeting and I will sort it all out and do a drawing for 3 prizes which you can only win one.

Hopefully the weather will change soon. There will be no finds of the month till April meeting.

See you soon,

Steve Miller
